

Dear Sir or Madam:

I am a subscriber to XM satellite radio, and I benefit greatly from listening to this form of radio and its traffic and weather channels. I love how satellite radio provides variety and quality that are not available elsewhere -- and with no annoying advertising since I pay a monthly fee for the service. Because I pay for these services, I believe very strongly that it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support satellite radio's ability to provide the kind of programming that I pay good money to receive.

Thank you for your time.

Respectfully,  
Brian Burt
